SOLAR ENERGY SPECIALISTS

SUNLIGHT IS ABUNDANT, FREE AND ENVIRONMENTALLY SUSTAINABLE AS A SOURCE OF ENERGY TO DRIVE GROWER OPERATIONS. THROUGH THE USE OF SOLAR ENERGY, SANTREV SOLAR AND ITS PARTNERS ARE ABLE TO OFFER A UNIQUE TURNKEY SOLAR SERVICE TO GROWERS.

Santrev Solar through its partnership with Solar Choice offers Poultry Farmers and the broader agriculture industry solar solutions across Australia. From 100KW to 1MW solutions, no job is too big to handle for Santrev Solar with access to a curated list of over 100 CEC accredited installers, managed through rigorous quality control, contract and project management processes to ensure workmanship and professional installations are outcomes with every engagement.

Why Use Santrev Solar?

We offer the Farmer peace of mind through our “turnkey” project managed solutions that we can substantially reduce their escalating energy costs, lift total farm value and offset farm carbon emissions through a seamless, fully integrated end to end solar service. Take advantage of generous government STC’s and different financing options to get into solar for your operation with investment paybacks of less than 4 years entirely feasible including no upfront investment options for the ultimate risk free investment in solar energy.

KEY FEATURES & BENEFITS OF OUR SOLAR PROCESS

Our Santrev Solar “turnkey” system includes:

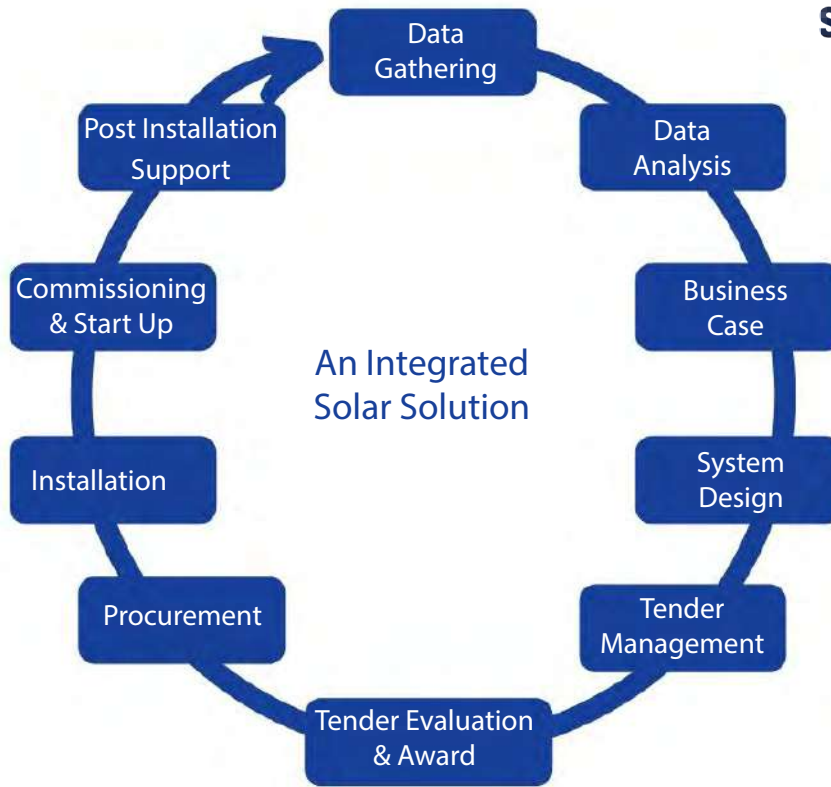

- Data gathering and analysis
- Business case development
- Optimal system design to maximise system ROI
- Tender management from up to 100 CEC accredited installers
- Tender evaluation and award in consultation with the client
- Contract execution and procurement
- System installation
- System commissioning and start up
- Post installation support

“As energy costs continue to rise, Solar power could potentially deliver long term cost savings to our business. Our suppliers have designed the solar system to suit our business needs and size, using top quality products with comprehensive warranties. We are looking at a payback period of 3.58 years. Investing in solar power not only reduces monthly operating costs and improve margins but helps us being environmentally and socially responsible. A business’ decision to go solar is both a “gain and give” situation.”

Tony Young - Grower, Western Australia.
